

To Whom It May Concern,

I am excited to recommend Brenda Ocegueda for a New Grad Program. While having the opportunity to be her instructor during her Geriatric Rotation, I observed her enthusiasm, endless energy, and eagerness to learn. She consistently demonstrated a strong commitment to patient care and was always ready to step in whenever asked, without hesitation. Her proactive attitude and willingness to contribute to the healthcare team set her apart amongst her peers.

Beyond her clinical hours at different institutions, she has had prior work experience including being a server, as well as assisting teachers at a preschool where she helped with activities and supervising children. From these experiences, she brings a well-rounded set of communication and organizational skills to the healthcare setting. Additionally, her administrative work at Su Casa has further developed her ability to manage multiple tasks efficiently. She knows when to ask for help and how to effectively communicate with both patients and the healthcare team. With these varied experiences, I am confident she will continue to perform safely and effectively when taking on the role as a Registered Nurse.

Overall Brenda's enthusiasm, strong work ethic, and diverse experiences make her an outstanding student. I am confident that she will continue to grow and thrive in her future clinical practice, delivering safe, effective, and compassionate care to her patients.

Please feel free to reach out if you need any further information or more details, I would be happy to provide them.

Sincerely,
Jasmine Ben, BSN, RN
